# Vaccinations are Picking up

- Overall rate of vaccination among Nigerians is low.
- However, rate of vaccinations is increasing.
- Weekly vaccinations crossed 1 million in Dec 2021, and crossed 1.6 million weekly vaccinations in February.
- Unfortunately people receiving their second dose continues to lag.

# First Dose COVID-19 Vaccination in Nigeria

NPHCDA National Daily Call in Data, February 9, 2022

# Jigawa and Nasarawa lead the country

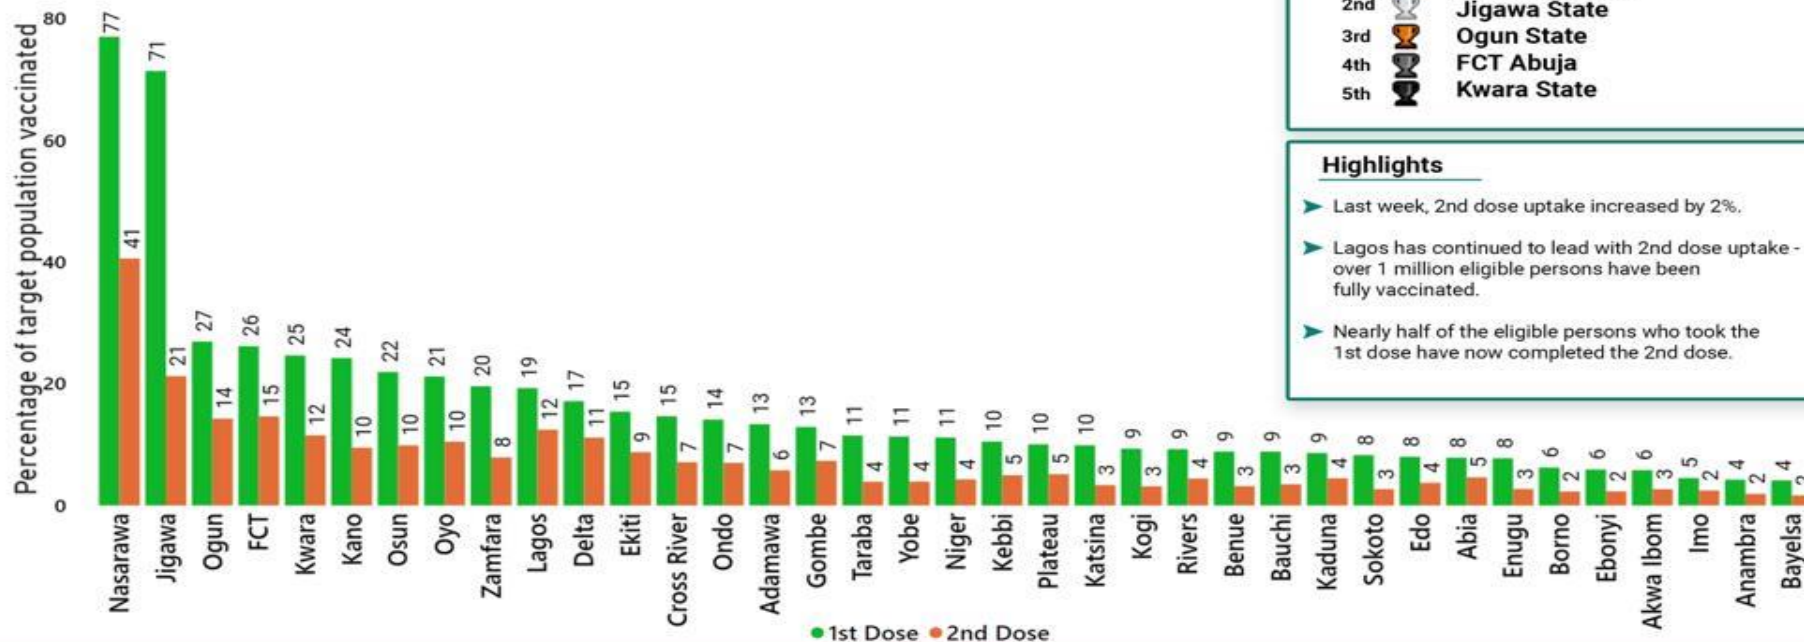

## Summary of COVID-19 Vaccination

Progress towards vaccinating 50% of eligible population in all States by 31-Mar-2022

28<sup>th</sup> February 2022

### Top 5 Performing Governors

- 1st 🏆 **Nasarawa State**
- 2nd 🏆 **Jigawa State**
- 3rd 🏆 **Ogun State**
- 4th 🏆 **FCT Abuja**
- 5th 🏆 **Kwara State**

### Highlights

- Last week, 2nd dose uptake increased by 2%.
- Lagos has continued to lead with 2nd dose uptake - over 1 million eligible persons have been fully vaccinated.
- Nearly half of the eligible persons who took the 1st dose have now completed the 2nd dose.

# How can we use effective communication to drive vaccine uptake in Nigeria?

# Thank You
